## About Bridge Referrals

Bridge Referrals is privately owned and operated and is also a member of the Federation of Independent Veterinary Practices. The Bridge Referrals team has invested £3.6 million into the Referral Centre over the last 24 months.

Our multidisciplinary approach allows for collaboration between different disciplines and improves the quality of care enabling positive outcomes for complex cases.

The Referral Centre contains:

- 8 consult rooms
- Medicine and Cardiology facilities
- Chemotherapy and Electrochemotherapy facilities
- Diagnostic imaging facilities including x-ray, ultrasound, CT and travelling MRI
- Ophthalmology facilities with surgical microscopy and theatre
- Soft Tissue surgical facilities
- Orthopaedic surgical facilities
- Fluoroscopy, Arthroscopy and Endoscopy
- In-house laboratory testing cytology, microscopy, haematology, urinalysis, biochemistry (including drug monitoring), endocrine assays, infectious disease screening, blood gas and coagulations.

### Location:

Bridge Referrals is ideally located on the A19 at Boldon Colliery. With major road links to the whole region.
